

Research capacity for your clients

Your clients ask which Shanghai subsidies they can apply for. Your team does not always have the hours. We produce fixed-price eligibility memos in English or Chinese, in 2–7 business days, with every claim linked to the official Chinese notice.

Packages

Package	What you get	Price	Delivery
Basic	One programme: fit and gap analysis, document checklist, official notice link	\$50	2 business days
Standard	Three programmes ranked by fit, gaps, documents, deadlines, official links	\$150	4 business days
Premium	Full eligibility report, document checklist, application draft outline, 30-min call	\$300	7 business days

Who it is for

- Foreign-invested SMEs in Shanghai with a local entity
- Accounting, HR and corporate-service firms whose clients ask about grants
- Chambers and trade bodies supporting member companies

How referrals work

Refer a client, receive 20% of the first order.

Send us the company name and Shanghai district; we handle scoping, delivery and the client relationship. No cost to you, no exclusivity required.

What makes it different

- Daily monitoring of nine official Shanghai sources — we see notices when they open, not after
- English and Chinese deliverables
- Every deliverable links to the official notice for verification
- Clear scope: research and documents only; we do not submit applications or guarantee outcomes
